Over a quarter of a century of scientific research led to the development of these innovative products. Each device acts as a storage medium for intrinsic data, like a flash drive for a computer or a memory card for a camera or cell phone.

Major Benefits

- Enhance the body's natural healing process
- Maintain balance, harmony and health
- Improve strength, wellness and vitality
- Reduce pain and allergy symptoms

Our products use resonate bio-signatures emitted from the devices to balance important ionic relationships necessary for cells to function at their greatest potential. Improved cellular activity increases vitality and enhances the body's natural healing ability.

Once the brain successfully balances cellular energy, stress is reduced and the body's natural healing process can be efficiently optimized.

Allergy Overload Technique

The Allergy Overload Technique is a homework technique designed to help the body deal with allergies and the symptoms related to allergy stress syndromes. This a one of a kind self-healing modality, combines a unique Neuro-Prompting System with a breakthrough innovative technology empowered by Subtle Energy Science.

AOT is performed along with either a Bio-Harmonizer Pendant or a Bio-Resonator Medallion. These tools allow the subtle energy formulas stored in the device to communicate with the body's Energy Handling System, using Advanced Resonating Intrinsic Technology. The technique simultaneously uses a series of Neuro-Prompts to prompt the body's nervous system into taking an action.

The points used in this technique are situated on acupuncture meridians which when stimulated, while holding a suspected allergen, have the potential to re-coordinate the brains response to the offending item. Thereby eliminating or reducing the body's allergic reaction.
